SOURCE™

Data Centre As A Service

SourceSmart™ Efficient, Connected Data Centres

The SMARTEST Way

Data centres as part of the IT Stack.

Access infinite resources, 5kW to 20kW+ colocation environments, 10Mbps to 100Gbps network and Tier-1 IP Transit – ALL WITH NO COMMITMENT.

SOURCE DCaaS allows you to take control of your data centre costs on a true pay-as-you-use model. Total flexibility allows for the peaks and troughs of demand, growing and shrinking with your needs.

Metered usage
- ✓ pay only for what you use, when you use it

Fluctuating needs
- ✓ Power and IP Transit available on-demand
- ✓ To 5kW per rack and 1Gbps IP Transit

No Commitments, rents or reservation fees
- ✓ SOURCE's unique Data Centre as a Service provides true pay-per-use data centre provision.
- ✓ Our customers have access to almost unlimited resources but only pay for what they actually use.

Flexible Contracts – no long term service contracts
- ✓ Simply on a monthly rolling agreement

SOURCE DCaaS

✓ **No Contract**
- ▪ Monthly rolling agreement

✓ **Dynamic**
- ▪ Re-distribute On-Demand

✓ **Agile**
- ▪ Grow/Shrink On-Demand

✓ **Burstable**
- ▪ No commit Power usage
